

# MedPAN Alien Invasive Species Strategy / *Stratégie MedPAN* *Espèces Invasives*

## Several scales

- To MPA network scale, that is a scale particularly relevant due to the often very mobile behaviour of many invasive species
- To the level of each MPA. However, the actions of different MedPAN members will vary with their needs and capabilities
- To a general marine scale that create a better understanding and information on the invasive species issue

Chloë Webster - MedPAN
